

## Capacity Building RFP Question Responses November 4, 2022

### ***Question 1. Clarification on dates for deliverables completed.***

Date for deliverables completed: June 30, 2023

Date all invoices must be submitted by: May 31, 2023

### ***Question 2. I just want to clarify something...the proposed projects/training/curricula are supposed to be implemented and reported out on by May 21, 2023? OR can we propose programs that will be implemented throughout 2023 and just report on their progress in May?***

Deliverables for all proposed program deliverables must be completed by June 30, 2023.

### ***Question 3. Are costs for setting up an experimental lease at the school in Castine Harbor including some gear an allowable expense?***

This would not be an allowable expense as it would be considered infrastructure, and the time frame for getting a lease is up to 2 years (ie. outside the timeframe of SEA Maine).

### ***Question 4. Are costs for administering the modules for one semester i.e. 5k for adjunct faculty fee including feedback from students and modifications to modules allowable.***

If they are new modules, this is an acceptable cost

### ***Question 5. Are costs for environmental sampling gear i.e. current meter ctd or temperature loggers allowable.***

Yes, this is acceptable.

### **Question 6: What is the updated link to the CD 512 form?**

The CD 512 form is available here: [newcd512 \(noaa.gov\)](https://www.noaa.gov/education/outreach-and-participation/512-form)
