# WHERE VARIETY MEETS QUALITY

Maine's seafood offerings extend far beyond lobster. From succulent clams and crabs to exquisite salmon, haddock, monkfish, oysters, mussels, and scallops, Maine boasts a diverse and delectable array of high-quality, flavorful seafood.

Our lengthy coastline and cold, clean waters produce seafood of unparalleled quality. Maine's independent fishermen, sea farmers, and processors ensure it arrives as perfect as it was when it was harvested from the ocean's briny depths.
